Product Details

PRO15 - UL Tower Server XS460-1

The UL Tower Server XS460 is the perfect first server for growing business. It provides all the necessary server features in an affordable, functional package.

It combines the power of the latest Intel Pentium/Xeon, 2 and 4 core processors with our reliability, service and support. A mix of PCI and PCI-Express slots delivers the expandability that a growing business requires. In addition, the UL Tower Server XS460 can be upgraded with the cost-effective Remote Management card for remote sites or second offices.

5142MB/1G5B standard/8GB maximum of PC2-64400
Unbuffered DDR2 ECC 8060 MHz
4 total I/O slots: One (1) 3.3V PCI and three (3) PCI Express (1x6 & 2x1)
Integrated 6 disk SATA controller with SATA RAID 40/1/1063
Easy Set Up CD: simplifies deployment and installation process and has a SmartStart like look and feel for a consistent user experience across the ProLiant servers
Four (40) HDD bays in an improved chassis design
